Visa Resolve Online Release 19.2 Documentation—26 July 2019

Visa has published the following Visa Resolve Online (VROL) documents:

- Schema and Technical Reference (no change)
- DIFF Schema Compare (no change)
- Interface Element Specification (IES) (no change)
- Web Services Description Language (WSDL) file (no change)
- Web Application Description Language (WADL) file (no change)
- VROL Bulk SI Development Guide (updated)
- VROL Reference Manual (updated)
- VROL Member Test Scenarios (no change)
- Real Time System Interface for VROL (updated)
- Admin Role Matrix (updated)
- VROL 19.2 IES Business Document (no change)
- 19.2 Questionnaire Mock Ups 0519 (no change)

This is the final planned documentation package for Release 19.2, which is accessible from the VROL MTE2 environment. Every effort has been made to ensure the accuracy of the documentation. Any changes identified will be communicated in subsequent publications of the documentation.

CHANGES TO DOCUMENTS SINCE THE LAST 19.2 RELEASE DOCUMENTATION PACKAGE

The *RTSI Development Guide*, *Bulk SI Development Guide*, *Reference Manual*, and *Admin Role Matrix* are updated for new features, enhancements, or corrections for the 19.2 release.
